

Insurance platform for Life and Non-Life insurers

AdInsure is a powerful insurance platform that makes running your business easy. Designed for Life and Non-Life insurers, it gives you the functionality and capability to streamline business processes, improve user experience and manage change effectively.

PROCESSES

AdInsure business modules

Sales

Helps your sales team to issue offers, conclude policies, and manage user data.

Policy management

Manage contracts easily with streamlined support for amendments.

Billing and accounting

A full suite of tools to support all your general billing, direct debit and dunning processes.

Claims and recoveries

Supports claims processes, including claim registration, handling, and liquidation.

Reinsurance

Sharing of excess risk, reinsurance contracts, and bordereaux management.

Product definition

Configure all aspects of insurance products for any type of insurance business line.

Flexible functionality across the entire platform

Multi-language

Easily switch between languages and new dictionaries.

Multi-currency

Support for all international currencies on contract, claims, and accounting documents.

Compliance

Support for EU and other regulatory acts such as GDPR, IDD, FATCA, Solvency II.

Printing

Configurable HTML templates for easy document print-out.

Versioning

See document and configuration history on-demand.

Activity management

Create and schedule activities, assign and send them to group or user dashboards.

A future-proof platform that lets you keep evolving

Standardised

Predefined processes that work out-of-the-box are built around industry best practices.

Configurable

Lets you implement changes quickly and conveniently, without touching the source code.

Cloud

You can run AdInsure in your private cloud, or in the public cloud with Microsoft Azure.

Scalable

You can start the project roll-out with just the modules you need, then add more later.

Unified

AdInsure delivers a seamless, continuous experience across computer, tablet and mobile.

Open

All functionality and custom configurations feature RESTful API.

Adacta Fintech

Adacta Fintech is a leading software provider for the insurance industry. Our insurance platform, AdInsure, gives Life and P&C insurers a future-proof way to streamline their operations and processes.

Formed in 1989, we've spent decades helping insurance organisations to grow their digital capabilities and drive new profits. Our mission is simple: empower tomorrow's industry leaders to reach their potential through technology.
